

The image shows a net for a book cover, laid out flat. It consists of four main rectangular panels arranged in a 2x2 grid, separated by a central vertical strip and a horizontal strip at the bottom. The panels are labeled as follows:

- Top Left Panel:** Labeled "INSIDE OF BACK COVER (design this way up)".
- Top Right Panel:** Labeled "INSIDE OF FRONT COVER (design this way up)".
- Bottom Left Panel:** Labeled "BACK COVER (design this way up)".
- Bottom Right Panel:** Labeled "FRONT COVER (design this way up)".

A central vertical strip, representing the spine, runs between the left and right panels. It has a wider section at the top and bottom, connected by a narrow section. The top and bottom sections of the spine strip are wider than the main panels. The bottom section of the spine strip is connected to a large, trapezoidal flap that extends to the right, designed to wrap around the front cover. Red solid lines indicate fold lines, and blue dashed lines indicate cut lines. The entire net is outlined with a red solid line.
